(2017– 2018)
SSLC –98%

PROJECTS

BANKING WEBSITE INTEGRATED WITH BLOCKCHAIN
SEPTEMBER 2024 – NOVEMBER 2026

TEAM PROJECT
ROLE PLAYED - FRONTEND AND BLOCKCHAIN

• Developed a secure online banking platform using React.js for the frontend and Solidity for blockchain-based transactions.
• Implemented MetaMask authentication, allowing users to log in using their wallet address and password.
• Enabled fund transfers within the same wallet and between different user wallets using smart contracts.
• Designed and integrated a transaction history feature, allowing users to track all past transactions securely on the blockchain.
• Ensured a seamless user experience by optimizing UI components and enhancing security for blockchain transactions.

A FINE DINING EXPERIENCE – RESTAURANT WEBSITE
MARCH 2026 ONGOING

INDIVIDUAL PROJECT

• *Designed and developed a visually appealing restaurant website using only HTML and CSS.*
• *Created structured sections for showcasing restaurant details, menu items, gallery, customer reviews, and chef profiles.*
• *Implemented an intuitive navigation system for seamless user experience across different sections.*
• *Developed an interactive menu page where users can browse food items and place orders.*
• *Designed an engaging gallery showcasing high-quality images of dishes and restaurant ambiance.*
• *Enhanced user experience with smooth hover effects and pleasing layouts*

EXTRA-CURRICULAR ACTIVITIES

Paper Presentation

1. Presented Paper on *"BANKING APPLICATION INTEGRATED WITH BLOCKCHAIN"* in

NATIONAL LEVEL TECHNICAL SYMPOSIUM

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge and belief.
